Plant Cell, Tissue and Organ Culture (2005) 83: 369–372

CONTENTS Volume 83 2005

Volume 83 No. 1 October 2005

Somatic hybrids between potato *Solanum tuberosum* and wild species *Solanum vernei* exhibit a recombination in the plastome
S. Trabelsi, R. Gargouri-Bouzid, F. Vedel, A. Nato, L. Lakhoua, N. Drira 1–11

***Agrobacterium*-mediated transformed transgenic triploid bermudagrass (*Cynodon dactylon* × *C. transvaalensis*) plants are highly resistant to the glufosinate herbicide Liberty**
F. Hu, L. Zhang, X. Wang, J. Ding, D. Wu 13–19

Genome fidelity during short- and long-term tissue culture and differentially cryostored meristems of silver birch (*Betula pendula*)
L. Ryynänen, T. Aronen 21–32

Selection of turmeric callus for tolerant to culture filtrate of *Pythium graminicolum* and regeneration of plants
M.C. Gayatri, V.R. Darshini, R. Kavyashree 33–40

Overexpression of *Arabidopsis ABF3* gene enhances tolerance to drought and cold in transgenic lettuce (*Lactuca sativa*)
E. Vanjidorj, T.-W. Bae, K.-Z. Riu, S.-Y. Kim, H.-Y. Lee 41–50

***Agrobacterium*-mediated transformation of Perilla (*Perilla frutescens*)**
B.-K. Lee, S.-H. Yu, Y.-H. Kim, B.-O. Ahn, H.-S. Hur, S.-C. Lee, Z. Zhang, J.-Y. Lee 51–58

Metabolic comparison of cryopreserved and normal cells from *Tabernaemontana divaricata* suspension cultures
L. Suhartono, F. Van Iren, W. De Winter, S. Roytrakul, Y.H. Choi, R. Verpoorte 59–66

Rapid regeneration of *Phaseolus angustissimus* and *P. vulgaris* from very young zygotic embryos
P.A. Schryer, Q. Lu, A. Vandenberg, K.E. Bett 67–74

Selection of atrazine-resistant plants by *in vitro* mutagenesis in pepper (*Capsicum annuum*)
P. Venkataiah, T. Christopher, S. Karampuri 75–82

***Agrobacterium*-mediated transformation of cotton (*Gossypium hirsutum*) using a heterologous bean chitinase gene**
M. Tohidfar, M. Mohammadi, B. Ghareyazie 83–96

Development of *in vitro* methods for *ex situ* conservation of *Eucalyptus impensa*, an endangered mallee from southwest Western Australia
E. Bunn 97–102

Production of yam microtubers using a temporary immersion system
M.C. Jova, R.G. Kosky, M.B. Pérez, A.S. Pino, V.M. Vega, J.L. Torres, A.R. Cabrera, M.G. García, José la C. de Ventura 103–107

The effect of magnetic field on *Paulownia* tissue cultures
O. Yaycili, S. Alikamanoglu 109–114

Cryopreservation of encapsulated gentian axillary buds following 2 step-preculture with sucrose and desiccation
M. Suzuki, T. Akihama, M. Ishikawa **115–121**

Research Note

Effect of cytokinins on shoot regeneration from cotyledon and leaf segment of stem mustard (*Brassica juncea* var. *tsatsai*)
D.-P. Guo, Z.-J. Zhu, X.-X. Hu, S.-J. Zheng **123–127**

Volume 83 No. 2 November 2005

Enhanced biotransformation capacity of *Rhodiola rosea* callus cultures for glycosid production
Z. György, A. Tolonen, P. Neubauer, A. Hohtola **129–135**

***Trifolium alexandrinum* × *T. resupinatum* – interspecific hybrids developed through embryo rescue**
P. Kaushal, D.R. Malaviya, A.K. Roy, B. Kumar, A. Tiwari **137–144**

Protoplast fusion in banana (*Musa* spp.): comparison of chemical (PEG: polyethylene glycol) and electrical procedure
A. Assani, D. Chabane, R. Haïcour, F. Bakry, G. Wenzel, B. Foroughi-Wehr **145–151**

Phenolic content of microcuttings of adult chestnut along rooting induction
J.L. Fernández-Lorenzo, A. Ballester, A. Rigueiro **153–159**

Characterization of some chromosomal aberrations in regenerated rice plants (*Oryza sativa*)
A. Kharabian, A. Darabi **161–168**

Morphogenesis in isolated microspore cultures of *Brassica juncea*
N.P. Chanana, V. Dhawan, S.S. Bhojwani **169–177**

The weak cytokinins N,N′-bis-(1-naphthyl)urea and N,N′-bis-(2-naphthyl)urea may enhance rooting in apple and mung bean
R. Ada, C. Angela, R. Enrico, B. Cristina, B. Camillo **179–186**

Successful *Agrobacterium*-mediated genetic transformation of maize elite inbred lines
X. Huang, Z. Wei **187–200**

Extracellular matrix surface network during plant regeneration in wheat anther culture
R. Konieczny, J. Bohdanowicz, A.Z. Czaplicki, L. Przywara **201–208**

A study of *in vitro* regeneration in relation to doses of growth regulators in hybrids of upland cotton
S. Rauf, Hafeez-ur-Rahman **209–215**

Production of 2-(2-phenylethyl) chromones in cell suspension cultures of *Aquilaria sinensis*
S.-Y. Qi, M.-L. He, L.-D. Lin, C.-H. Zhang, L.-J. Hu, H.-Z. Zhang **217–221**

***Agrobacterium*-mediated transformation of common bermudagrass (*Cynodon dactylon*)**
L. Li, R. Li, S. Fei, R. Qu **223–229**

Efficient plant regeneration system from leaf discs of zonal (*Pelargonium* x *hortorum*) and two scented (*P. capitatum* and *P. graveolens*) geraniums
A. Hassanein, N. Dorion **231–240**

Research Note

Effects of growth regulators on direct flowering of isolated ginseng buds *in vitro*
C.-S. Lin, C.-T. Chen, H.-W. Hsiao, W.-C. Chang **241–244**

Volume 83 No. 3 December 2005

Ovule-specific expression of the genes for mitochondrial and endoplasmic reticulum localized small heat-shock proteins in tomato flower
K. Sanmiya, K. Suzuki, A. Tagiri, Y. Egawa, M. Shono **245–250**

Manipulation of the culture environment on *in vitro* air movement and its impact on plantlets photosynthesis
Y. Kitaya, Y. Ohmura, C. Kubota, T. Kozai **251–257**

Efficient transformation of beet (*Beta vulgaris*) and production of plants with improved salt-tolerance
A.F. Yang, X.G. Duan, X.F. Gu, F. Gao, J.R. Zhang **259–270**

Micropropagation of sweet viburnum (*Viburnum odoratissimum*)
G. Schoene, T. Yeager **271–277**

Morphogenesis in Sitka spruce (*Picea sitchensis* (Bong.) Carr.) bud cultures – tree maturation and explants from epicormic shoots
C. Selby, S. Watson, B.M.R. Harvey **279–285**

Cultivating *in vitro* coconut palms (*Cocos nucifera*) under glasshouse conditions with natural light, improves *in vitro* photosynthesis nursery survival and growth
C. Talavera, F. Contreras, F. Espadas, G. Fuentes, J.M. Santamaría **287–292**

Regeneration of *Aloe arborescens* via somatic organogenesis from young inflorescences
M. Velcheva, Z. Faltin, A. Vardi, Y. Eshdat, A. Perl **293–301**

Production of fertile somatic hybrids of *Gossypium hirsutum* + *G. bickii* and *G. hirsutum* + *G. stockii* via protoplast fusion
Y. Sun, X. Zhang, Y. Nie, X. Guo **303–310**

Engineering tomato for resistance to tomato leaf curl disease using viral *rep* gene sequences
S. Praveen, C.M. Kushwaha, A.K. Mishra, V. Singh, R.K. Jain, A. Varma **311–318**

Interfamilial cell fusion among leaf protoplasts of *Populus alba, Betula platyphylla* and *Alnus firma*: assessment of electric treatment and *in vitro* culture conditions
Y. Wakita, S. Yokota, N. Yoshizawa, T. Katsuki, Y. Nishiyama, T. Yokoyama, M. Fukui, H. Sasamoto **319–326**

***In vitro* flowering of *Kniphofia leucocephala*: influence of cytokinins**
N.J. Taylor, M.E. Light, J. Van Staden **327–333**

Abnormal chromosomes and DNA content in micropropagated rhubarb (*Rheum rhaponticum* L.) PC49
Y. Zhao, B.W.W. Grout, A.V. Roberts **335–338**

In vitro propagation of *Hippeastrum* × *chmielii* Chm. – influence of flurprimidol and the culture in solid or liquid medium and in temporary immersion systems
A. Ilczuk, T. Winkelmann, S. Richartz, M. Witomska, M. Serek **339–346**

Research notes

Shoot multiplication in cultures of mature *Alnus glutinosa*
S. Lall, Z. Mandegaran, A.V. Roberts **347–350**

Regenerative callus of *Dianthus* 'Telstar Scarlet' showing mixoploidy produce diploid plants
C. Nontaswatsri, S. Fukai **351–355**

Comparative study of morphological parameters of Grand Nain banana (*Musa* AAA) after *in vitro* multiplication with growth retardants
N.R. Albany, J.A. Vilchez, L. Garcia, E. Jiménez **357–361**

Instructions for Authors **363–366**

Author Index **367–368**

Contents of volume 83 **369–372**
